—The Odd Fellows' Thanksgiving ball was well attended.

—Ellis & Co. continue to run their hay press regularly.
—Mr. Hardin, of Missouri, is visiting friends in our county.
—District Court adjourned last Saturday until next Monday.

—Some sleepy looking folks around town last Friday morning.
—Church socials in our town are among the things that were.
—F. W. Bartlett and lady, of Neosho Falls, were in our city last Sunday.

—Rev. J. E. Bryan will preach at the Methodist church to-morrow morning.
—For cards, circulars, letter heads etc., printed in good style, call at this office.
—It was four o'clock last Friday morning before the dancers all left Odd Fellows Hall.

—There were 8,827,810 pounds of butter and 1,240,610 pounds of cheese made in Kansas last year.
—Remember that the first installment of taxes must be paid on or before the 20th of next month.

—James Kelly has returned to Iola and opened up a barber shop on east side Washington avenue.
—Mr. John Francis has been up to Olathe this week on business connected with the blind asylum.

—A young boy took quite a fast ride through town yesterday by getting on a horse without a bridle.
—Quite a difference in the price of cattle and stock hogs now compared with this time last year.

—Mrs. J. K. Boyd, who has been very ill and whose recovery was thought doubtful, is getting well.
—Mrs. Jennie McAllister is visiting with her father and mother, Mr. and Mrs. McClure, in this city.

—The public schools were dismissed last Thursday that teachers and pupils might enjoy Thanksgiving.
—Nothing definite has yet been done in reference to having Allen county represented at the Centennial.

—The County Superintendent will hold an examination for teachers, to-day, at the school house in this city.
—In the spelling match between the Iola and Humboldt schools on the evening of the 19th inst., Iola came out second best.

—Has the City Marshal examined, as required by ordinance, the chimneys and flues in the business and dwelling houses in our town?
—The Odd Fellows gave a supper for the dancers, and others, in the building formerly occupied by the furniture store last Thursday night.

—Dr. M. DeMoss, of this city was married to Mrs. Blair, at Independence, last Monday evening by the Probate Judge of Montgomery county.
—If Peter Bell has received his commission as Judge for the unexpired term he will doubtless reside at the District Court in this city next week.

—The newly elected Justices of the Peace for this township, Messrs. Paxson and Boyd, have "qualified" and entered upon the duties of their offices.
—There was rain enough fell last Thursday to benefit the growing wheat, but not enough to replenish the cisterns that are getting so nearly empty.

—Dr. John W. Scott, land commissioner of the Leavenworth, Lawrence & Galveston railroad, was shaking hands, &c., in the city yesterday.—Topeka Commonwealth.

—Selling milk has been found to be a profitable business in this country, and we are glad to learn that Mr. Cook has determined to put up a cheese factory and buy all the milk he can get.
—The question of a herd law is being agitated in several of the eastern counties of the State, and the number favoring it is constantly on the increase.

What do the people of Allen county think about it?
—We understand that petitions are being circulated for signers in favor of a herd law for Allen county, and that these petitions will be presented to the new Board of Commissioners some time in January next.

—According to the census returns Allen county has 2,925 horses; 3,900 cows and 9,756 other cattle; 4,719 hogs; 338 mules; 823 sheep, and 1,147 dogs. Not sheep enough to keep the dogs another year if they had to depend on mutton for a living.

—It is time of year when people should be thinking about subscribing for papers and magazines. First renew your subscription for your county paper and then read the prospectuses published in this paper and select such as you think will best suit your wants.

—W. C. Jones came near having a first-class fire, one morning the first of the week. The floor in the second story of his house caught fire from the stove-pipe which passes through it, and but for timely discovery and extinguishment the building would soon have been in flames.

—H. C. Munert, living in the Southern part of the county, brought suit against one of his neighbors, Geo. Hettiger, charging him with poisoning his dog. The verdict of the jury was against him, and instead of securing damages for the loss of his dog he has, in all, over three hundred dollars costs to pay. Very unprofitable business to go to law about a dog—especially where it is neither blooded nor valuable.

—Mr. Ireland is among the first in town to get to his work these mornings, and last Wednesday he built a fire real early, and from a defective flue came near getting his tailoring establishment burned out. He discovered the fire, however, before it got much of a start and secured a ladder and put it out, had the flue repaired and rebuilt his fire and got to work by the time the other business houses were opened.

—Iola is to have a cheese factory. Mr. Robert Cook has decided to put up a factory in our city for the purpose of making cheese. He has engaged a cheese maker from New York, who has had long years of experience in the business in that State and who made cheese our people that as good cheese could be made in Kansas as anywhere. The factory will be ready for operations early in the spring, and Mr. Cook says that he will be prepared to use the milk from five hundred cows. That cheese making is a paying business in Kansas has been fully demonstrated, and that this enterprise will be a success no one who is acquainted with Mr. Cook will have a doubt. Furnishing milk to this factory will be a profitable business to those who have cows, and it is a matter worthy their attention.

—The Paola Spirit is square out for the herd law.
A new water power mill is being put in operation at Ottawa.
A Labette county farmer is building a crib to hold 15,000 bushels of corn.

THE WEEKLY SUN.
1876. NEW YORK. 1876.
Eighteen hundred and seventy-six is the Centennial year, and the year of the twenty-third election of a President of the United States. All of these things are of great interest and importance, especially the two latter, and all of them are connected with the year of the Sun. The Sun, which has attained a circulation of over eight hundred thousand copies, already has its readers in every State and Territory, and we are sure that the year 1876 will see its numbers doubled. It will continue to be a thorough news paper, and the general news of the day will be found in it, condensed when unimportant, at full length when of moment; and always, we trust, treated in a clear, interesting and informative manner.

THE COMMONWEALTH.
PROSPECTUS FOR 1876.
The present proprietor of the Commonwealth secured control of the paper in March, 1875, and the pleasure of announcing that the policy which has since governed him in his management has met the approval of the public, as evidenced by a steady increase in its subscription list, with the results so far, he has the honor to announce that the Commonwealth will continue to be the same—"only more so."

LEGISLATIVE REPORTS.
As heretofore, be a prominent feature. The paper will not be content with a routine matter, but will give the essence of all that is said and done. The syllabi of decisions of the Supreme Court will be published by authority in the Commonwealth, as are official notices and publications from all the departments of the State Government.
